

Log de Cambios Versión 3.2.2.22.11

Se contempla la migración desde la versión **3.2.2.190**

Después de actualizar los archivos de Software y los sitios, realizar las siguientes actualizaciones de base de datos con el SetupBox¹⁾.

Nuevo!

Función para verificación en un solo paso de archivos cfg²⁾, tablas y actualizaciones de versión.

1. En SetupBox > Módulos > Común

Para la versión 3.2.2.22.11 se deben instalar las siguientes actualizaciones:

Forum manager
Project manager, Project Manager Setup
Module Code Manager
Module Code MODULECODETYPE update

- Dar clic en **Check Upgrade**

STATUS	VERSION	COMERCIAL	CERTI...	BUILD	RE...	DATE	DETAIL
Pending	2	2020 Q1	3.2	17	True	3/08/2020	Forum manager
Pending	2	2020 Q1	3.2	20	True	30/09/2020	Project manager, Project Manager Setup
Pending	2	2020 Q1	3.2	21	True	17/11/2020	Module Code Manager
Pending	2	2020 Q1	3.2	22	True	19/11/2020	Module Code MODULECODETYPE update

- Para actualizar la versión en base de datos:
Dar clic en **Apply Upgrade**.

- Habilitar la casilla **Full Update** para incluir los pasos de verificación de archivos .cfg y tablas/campos
- En caso de no activar la casilla **Full Update** se van a realizar unicamente las actualizaciones de versión pendientes

STATUS	VERSION	COMERCIAL	CERTI...	BUILD	RE...	DATE	DETAIL
Pending	2	2020 Q1	3.2	17	True	3/08/2020	Forum manager
Pending	2	2020 Q1	3.2	20	True	30/09/2020	Project manager, Project Manager Setup
Pending	2	2020 Q1	3.2	21	True	17/11/2020	Module Code Manager
Pending	2	2020 Q1	3.2	22	True	19/11/2020	Module Code MODULECODETYPE update

Se generará resultado de las operaciones y se indicará si fue correcta o no la actualización:
